23. Honeybee Hive

In 2004, Mary "Polly" May Binney Wakefield established the Mary M.B. Wakefield Charitable Trust to maintain this property that was owned by one family for 300 years. Through careful stewardship of the collection of formal gardens, woodlands, wetlands, nurseries, and orchards, the 23-acre property was designated an arboretum in 2018. The mission of the arboretum is to enable this to be a place for education and community engagement using the resources on the property.

For everyone's enjoyment, please:
Respect all resident animals
Use litter receptacles
Keep pets under control
Clean up after pets
